

I am writing to let you know what an important message K-LOVE is sending across the world. We are Sunday School teachers at our church, for the College & Career class.

It is so hard to reach everyone, and by listening to K-LOVE, we are not only encouraged and refreshed each week so that we can share our message, but we can reach out to our students and friends by letting them know about K-LOVE's positive broadcasting.

My husband and I no longer have to be bombarded by "trash talk" like we had grown accustomed to on other radio stations.

So many people need something to uplift them in these trying times. Please do not take this outlet for God's love and forgiveness away. Recently we took several church youth on a bike trip to a nearby park. The whole way there, they were singing along with K-LOVE, and our hearts were so encouraged.

Let everyone continue to have this valuable and cherished opportunity that we currently enjoy, and hope to lead others to. Who knows, maybe even our own children will listen to it someday. I certainly hope so.

Thank You,

Jennifer D. Meyer
